NO TOUCH HAND SANITIZER MACHINE

ABOUT MACHINE

We invest in technology to continuously improve our products and that's why everyday we make our machines better and the possibilities are endless. Our disinfection machines can even more suit to the need of your company and protect your employees, guests, partners and clients.

Currently we offer 7 different types of machines which can:

- Disinfect your hands
- Disinfect your small belongings with UV (keys, telephone, wallet...)
- Measure the temperature
- Play the desired videos, presentations, photos on the screen
- Be personalized with your own logo
- Scan QR code
- Have a disinfection hose for a safe disinfection of your surroundings and also bag, shoes, baby car, bicycle..
- Vending machine for selling any of hygiene items (disinfectants, mask, gloves...)

Our disinfection machines offer you a disinfection in a few seconds and are suitable for children and elderly. You can order the machine in any presented colour in RAL code.

Our Team has developed an application that makes it possible to control the NO-TOUCH hand sanitizer machine from a distance and to monitor its use.

ABOUT US

Logic Develop is part of Logic Chemie. The products of Logic Chemie are developed by bio-based technologies and guaranteed for 20 years. Logic Chemie stands for creating healthy living environments and we are improving ourselves everyday. Therefore we enlarged our company with a new department: Logic Develop .

Logic Develop stands for innovation and the best quality. We entered the world with best hygiene machines that can protect you and your loved ones in a quick and efficient way.

Each product has been developed with sustainability in mind and minimizing the ecological footprint. Our machines are made from materials that can be recycled. Our vision and company goal are to protect people, the environment and animals.

- User meter

APPLICATION

The Team of Logic Develop made an application to control the NO-TOUCH Hand Sanitizer Machine from a distance and to monitor its use. The application manages two categories:

1. Controle the machine from a distance

- Your own user profile for your machine;
- Let the machines start up and shut down automatically when you want;
- Have the desired photos and videos played on the machine at the desired time;
- Get a notification when the disinfection can is empty;
- Get a notification when the machine is not working or have any malfunction;
- Get a notification when the machine is removed from place.

ADVERTISEMENT

2. Playing advertisements of your company on the screen(s) of the machine

Our machines are located in various busy places. This allows many people to see the machines and see what is playing on the screen. It is possible to buy advertising time from us so that your marketing photos and videos are played on the machines. This means that it is not necessary to be the owner of the machine and you can use the marketing options that the machine has.
